

Exhibit 16-5 Request for Hysterectomy

A hysterectomy is the removal of the whole uterus (womb). A hysterectomy cannot be undone and it will permanently prevent you from having children. A hysterectomy should only be done when there is a disease of the woman's uterus (womb) or some other problem that can only be treated by removing the uterus (womb). It is a serious operation and there are discomforts and a chance of serious health problems.

A hysterectomy is not eligible for payment from AHCCCS if the reason you are having it is to avoid bearing children.

By signing below, I hereby consent of my own free will to undergo a hysterectomy. I understand that the hysterectomy will render me permanently incapable of reproducing. I hereby acknowledge receipt of this information.
