

## Health Choice Arizona Preferred Drugs

Consistent with Health Choice Arizona’s contract with AHCCCS, Health Choice honors all AHCCCS Pharmacy & Therapeutics (P&T) Committee decisions related to preferred drug products within specific medication classes. The effective dates of preferred status for drugs approved by the AHCCCS P&T Committee are noted below.

HCA shall provide coverage for preferred drugs listed in the HCA Drug Formulary (Drug List) before considering approval/authorization of non-preferred drugs. However, HCA shall approve non-preferred drugs when:

- 1) The member has previously completed step therapy using the preferred drug(s)
- or
- 2) The member’s prescribing clinician supports the medical necessity of the non-preferred drug over the preferred drug for the particular member.

All preferred drugs within specific medication classes are listed on the HCA Formulary (Drug List).

At Health Choice we are committed to helping our members increase their quality of life, and believe that these preferred drugs will meet the needs of our members.
